Floor baskets of white and pink dahlias were arranged against a background of palms and ferns, while a large wicker basket of white asters and lilies was effectively placed in the center of the altar. ## City And Railroad To Discuss Details Of Viaduct Project

Details of the kind of a contract to be entered into between the city of Memphis and the Illinois Central railroad for the construction of the McLeMORE avenue viaduct, will be discussed at a conference Thursday at 10 o'clock, between Mayor Paine, members of the city commission, Judge Charles N. Burch, local counsel for the railroad, the chief engineer of the Illinois Central and city engineer, W. B. Fowler.

J. W. Bondurant, city claim agent, has completed an appraisal of the property involved and has turned the figures over to Mayor Paine. These estimates together with the estimates of the railroad company will furnish the basis of the contract which must necessarily be entered into between the city and the railroad as soon as these details are disposed of, city officials believe that the work will begin within a short time.

Before work is begun, however, it will be necessary to condemn some property and it is understood that part of the plant of the Memphis Cofin company comes within the bounds of the property needed by the city in opening up the street for the viaduct. This particular piece of property, it is said, presents the most difficult problem, what the city has to face, as the survey lines already run, cut off a portion of the machinery of this plant. In condemnation of this property, it is, of course, necessary for the city to replace that portion condemned and it will be necessary to determine whether or not the present building will be moved or another story added to the existing one.

Mayor Paine has made it plain to the railroad officials in past conferences and letters that there must be no unnecessary delay, as the matter has already been hanging fire for several years. It is within the city's power to force construction and it is understood that the mayor is determined to use the power with which he has been vested in the event it is necessary.

It is alleged that Johnson struck and ran over the little girl as she was crossing the street. Will Parker and Andrew Johnson, negroes, were fined \$25 each in the city court on a charge of being intoxicated.

## Claims Wife Likes Blacks; Asks Freedom

Eight more divorce bills found their way into circuit court Tuesday, as an aid in settling the total of summertime marital unhappiness. The eight bills were filed by Attorney A. J. McDonald. Charlie Miller filed suit for divorce from Mary Miller, on the ground that she associated with negroes, danced with them while he was working at night, and furnished chickens for parties with them. They were married, he said, in Indiana, in 1912. His wife now has left her home and the state he alleged, because he told her she would have to quit her dusky associates.

Mrs. Ellen Layne was willing to stand for her husband serving 18 months in the federal prison at Fort Leavenworth, Kas., when he was found guilty in Texas of violating the antinarcotic laws. She waited until he did his time, then came to Tennessee with him, she alleged in her bill. But when Joe, the husband, was arrested in Covington, Tenn., on a burglary and larceny charge, then skipped his bond, she filed suit for divorce. The grounds she alleged was desertion for five years.

Desertion was alleged in the following cases: Mrs. Minnie Darnell vs. Sim Smith Collins vs. Anna. Abandonment and nonsupport formed the basis of these suits: Jessie Hamer vs. Leonard, Addie Howard vs. Will. Ruby Tanby vs. Noble.

Lottie Jaggins alleged that James beat her and turned her out of doors. Cruel and inhuman treatment, the statute terms this form of abuse.

## Our Boys' Shop Is Ready For Big League Company

There are just lots of people around here who said that all the service we were rendering in our Boys' Shop was useless and uncalled for.

But giving service to every Phil A. Halle patron—be he large or small—has always been our greatest boast—so we kept right on our merry little way—having boys' suits mostly and tailored—giving trysts by expert fitters and showing fabrics and patterns that good, live peppy boys liked—but couldn't find at regular stores.

And as a result we are enjoying about the greatest boys' patronage hereabouts—for we have conclusively proved that Phil A. Halle guaranteed quality boys' togery can be sold for the same or less price than the ordinary kind bought everywhere.

It's a peach of an idea.
